

STEP INTO WOLKY'S WORLD

Autumn/Winter 2021 collection

wolkyshop

STEP INTO WOLKY'S WORLD!

Put on a pair of Wolkys and you'll notice right away: **feet love our shoes**. Comfort is what we're all about. All our shoes feature anatomically shaped footbeds and are meticulously designed to produce a perfect fit. We also pride ourselves on our styling and colour, carefully selected materials and elegant finish.

Almost all models are available in a choice of colours and in sizes 3 to 10 (36-43) and sometimes even up to 11 (44)! All shoes and boots in this collection have **removable footbeds**. Ideal for women who use their own insoles. In addition, all models except those with a warm lining are **leather lined**.

Browse through this brochure and be inspired by all the great footwear featured in our new collection!

ROZZI

This elegant boot is beautifully shaped to fit snugly round your leg. The Rozzi has a square toe, a sassy block heel and a rubber sole made with small pieces of granulated cork. There is a concealed elastic insert near the zip for easy closure and a perfect, calf-hugging fit.

*The high boot is back
with a vengeance!*

➤ **SHARON**
This elegant long boot has a zip on the inside, which makes it easy to slip in and out of. Thanks to the concealed elastic inserts at the top of the shaft, the Sharon fits neatly around the calf without pinching.

PORTLAND

Wolky's Portland adds a touch of rugged to any outfit. The comfy platform soles make you look taller without awkward high heels! This sassy ankle boot is super flexible. And with laces and a zip, it's easy to slip in and out of.

The Portland comes from our Block line, along with the Chicago and the Phoenix. Take a closer look at the sole and you'll see where the line gets its name.

LOUNGE

This lace-up shoe is a must-have if you love going on long walks. What makes it so special is that the sole consists of two components. The black midsole is made of PU, which makes the shoe super light and comfortable. The undersole is made of TR, a type of rubber that's both cushioning and wear-resistant.

Keep your shoes looking great with Wolky All Protect spray!

VICTORIA

This sporty, high-top lace-up shoe from the e-Walk 2.0 line features a combination of materials. The padded upper feels soft on the foot and, together with the stretch leather, makes for a wonderfully comfy wear. With the Roll-a-Way system in the sole, you'll walk your way through the autumn with ease.

Even the underside of this boot is special!

SHOES FOR BUNIONS (HV)

Wolkysshop now features a range of models designed specifically for people with bunions (hallux valgus). What makes these shoes special is the extra room at the big toe joint. This gives your foot more freedom and prevents pinching while providing the right support at all other points. You can recognise these shoes by the letters **HV** after the name.

Your feet will thank you!

WATERPROOF (WP)

Every Wolky autumn collection features a number of waterproof models. Their stitched seams are sealed to keep moisture out, and there is a special membrane between the lining and the upper leather that is watertight from the outside in while allowing perspiration to escape. All waterproof shoes except the City Tracker, Traction and Grip have a warm lining.

EXTRA WIDE (XW)

Our collection features a range of models made for wider feet. They are roomier at the instep than regular models. To find our extra-wide models, look out for the **XW** after the name of the shoe.
