

# STEP INTO WOLKY'S WORLD

Spring/Summer 2023

### STEP INTO WOLKY'S WORLD!

Put on a pair of Wolkys and you'll notice right away: **feet love our shoes**. Comfort is what we're all about. That's why all our shoes for this autumn feature anatomically shaped footbeds and are meticulously designed to produce a perfect fit. We also pride ourselves on our passion for styling and colour, carefully selected materials and elegant finish. Almost all our models are available in a choice of colours and in sizes 3 to 10 (36 to 43) – and sometimes even up to 11 (44)! Towards the end of the brochure you'll find our specials: vegan, extra-wide and water-resistant shoes, shoes for bunions and diabetics and waterproof hiking boots.

### WOLKY 40 YEARS; WE WANT TO CELEBRATE THIS WITH YOU!

It's Wolky's 40th anniversary in April. We'll be celebrating throughout the month of April and give away nice prizes. How to win one of the prizes? Keep following us on social media and sign up for our newsletter at [www.wolkyshop.co.uk/newsletter/](http://www.wolkyshop.co.uk/newsletter/)

### REAL PARTY MODELS

Especially for our 40th anniversary we have launched three party models; the sporty Bounce, cool Cirro and the casual Celebration. The last, the Celebration, is based on our first shoe, the 1983 Nature. Below you can see the Bounce. Go to the next page to see the other models.

## FLY

With its superb design and fun colour combinations, the all-time favourite Fly lace-up is still right on trend. The sole consists of two layers: a PU midsole, which makes these shoes unbelievably light, and an outsole made of TR for extra cushioning and wear resistance.

### SHOES FOR DIABETICS WITH SENSITIVE FEET (DB)

Diabetes can cause sensitive feet. Our DB models have a **special lining** made of chrome-free microfibre and an **extra layer of foam** between the lining and the upper material. These models also have a **seamless vamp**, or front upper. If you have very severe diabetes, we recommend seeing an orthopaedist. If your diabetes is less advanced, why not try out these models?

06625 Holland DB

06625 Holland DB

### EXTRA WIDE (XW)

Our collection features a range of models made for wider feet. They are roomier at the instep than regular models.

## SHOES FOR BUNIONS (HV)

Wolky features a range of models designed specifically for people with bunions (hallux valgus). What makes these shoes special is the extra room at the big toe joint. This gives your foot more freedom and prevents pinching while providing the right support at all other points.

02452 Etosha HV

02455 Vida HV

05876 Move It HV

05895 Omaha HV

06618 Truth HV

06618 Truth HV

## FIT2FEET (F2F), ALSO FOR BUNION SUFFERERS

Besides our HV line, we have also developed a line based on our unique patented Fit2Feet design. These shoes stretch precisely where those annoying bumps form at the onset of the big toe joint (hallux valgus). Even if you don't actually have bunions but your feet often hurt after wearing court shoes or pumps, our F2F models are definitely worth checking out. Feet expand slightly during the course of the day, so these shoes stretch where the pressure is greatest.

### WATERPROOF HIKING SHOES (WP)

Off on a hike? Our collection features three real hiking shoes and boots with a waterproof tongue and Sympatex lining to keep water out.

06500 City Tracker WP

06505 Traction WP

06506 Grip WP

### VEGAN SHOES

They may look like regular Wolky leather shoes, but appearances can be deceptive! For our vegan collection we use the very latest materials with the same excellent properties as our leather shoes, such as breathability.
